## CONGRESS STUDIED STRATEGY FOR ONE WORLD GOVT' IN 1954

According to documents printed from the 83rd Congress in January of 1954, the U.S. Congress studied resolutions for world government. The documents were from the subcommittee on the United Nations Charter titled "Review of the United Nations Charter."

These documents prove that U.S. politicians were plotting to shift American sovereignty to a created world government and give it enforcement powers with an international police and military force. Consider the following quotes:

"This resolution declares the sense of Congress that a fundamental objective of United States foreign policy should be (1) to support and strengthen the United Nations, and (2) to seek its development into a world federation...with...powers adequate to preserve peace...and enforcement of world law." Page 842.

"Mr. Cord Meyer, chairman of the National Executive Committee of the United World Federalists, gave the following views to the committee: By passing this resolution we in the United States would be declaring our willingness to join with other nations in transferring to the U.N., constitutional authority to administer and enforce law that was finding on national governments and their individual citizens." Pages 842 & 843.

"Supranational government is the only way to end war and the threat of war. State sovereignty must be curbed. This resolution is the first step in the direction of creating world government...This means that the international government and its courts must have jurisdiction over the individual. This proposal envisages such control. If the United States goes into a world federation it will be necessary to compromise its way of

### McVEIGH'S ATTORNEY TRIES DESPERATE

### "FAIRY TALE" DEFENSE

The defense team of Timothy McVeigh are trying to tie in British and German neo-nazi's to the Oklahoma City bombing. It was discovered that McVeigh called a religious sect, Elohim City, to talk with Andy Strassmeir. Strassmeir had met McVeigh months earlier at a gun show and handed him a card with the group's phone number. Although Strassmeir never talked with McVeigh, defense attorney Stephen Jones has fabricated an elaborate conspiracy of neo-nazi's that were allegedly responsible for the bombing.

Elohim City is a semi-cloistered religious group that holds meetings during the sun's zenith seven days a week. Even though they are not neo-nazi's, they have an open door policy to speakers from a mixture of different political viewpoints. Through the years, Elohim City has been visited by KKK and White Aryan Resistance (WAR) speakers. Attorney Jones recklessly assumes that those contacts have contacts with neo-nazi's in Britain and Germany who conspired to commit terrorist acts in America. Presto! An international conspiracy.

Andy Strassmeir, who has returned to Germany, was contacted there and said, "My advice to you is that the attorney for McVeigh is pretty desperate. Right now, he may be creating fairy tales."

life...This resolution...would advise the President that it is the sense of Congress that the United Nations Charter should be revised to...(c) create an effective...international police force under a workable Security Council and World Court. This international contingent would be a "well paid professional force"...recruited from volunteers who are citizens of smaller states." Page 845.

"4. American atomic, military and economic superiority is only temporary. It is essential before that superiority is lost that there be created an international organization with strength to enforce the peace." Page 846.

"With reference to the power which such a world government should have, Sen. Taylor said; "We would have to sacrifice considerable sovereignty to the world organization to enable them to levy taxes...to raise sufficient armed forces...a police force...bigger than the present armed forces of the western nations." Pages 849 & 850.

"...the pending resolution would...advise the President of the sense of Congress that he should 'immediately take the initiative' in action designed to establish 'a true world government'." Page 850.

"The draft world constitution would endow the world government with authority to enact laws to preserve peace, to issue money and control credit, to regulate commerce..., condemn by eminent domain...to make final decisions on boundary changes." Page 850.

This study in Congress was done over 40 years ago. The same forces that were pushing a one-world government then is pushing it now. The international bankers, Communists and socialist dreamers are the ones conspiring to overthrow our form of government and replace it with a New World Order. This world government, by their own words, would levy taxes, create a powerful world army, issue money, control banking and enforce new laws that, in turn, would eliminate U.S. Constitutional rights.

In today's world, it is fashionable for politicians and citizens to promote a future world government. But what most Americans fail to realize is that to allow "world control" is to surrender your nation's independence and sovereignty. As true American patriots we must resist all levels of political change that forces us to eradicate our constitutional rights and the republic for which it stands.

## MYSTERY IN ALASKA

Popular Science Magazine of September 1995, discusses in a cover story a frightening new secret program operated by the Pentagon. Popular Science describes it as a "radio-physics project called the High Frequency Active Auroral Research Program (HAARP)." It is officially intended to expand knowledge about long-range radio communications.

The magazine has interviewed the program manager John L. Heckscher of the Phillips Laboratory at Hanscom, AFB, Massachusetts who stated that the potential military applications include detecting cruise missiles and communicating with submarines. The program is being managed by the Air Force and the Navy.

The magazine states that the HAARP Program also has a secret agenda: pursuing exotic military goals such as locating deeply buried weapons factories buried thousands of miles away, and (pay close attention here) altering local weather patterns above an enemy's territory! Criminal Politics Magazine has repeatedly published articles regarding the unmentionable subject of weather modification over the years. Now we find more experimentation in this area by the government - all with no notice to the American public.

A 1990 internal document obtained by Popular Science says that the true functions of the program are to inject high frequency radio energy into the ionosphere to create huge, extremely low frequency (ELF) antennas used for earth penetrating tomography - peering deep below the surface of the ground by collecting the ELF waves beamed down from above.

In addition the internal documents also show it would "create a global shield that would destroy ballistic missiles by overheating their electronic guidance systems as they fly through a powerful radar energy field and (confirming our concerns) manipulating local weather." (CRIMINAL POLITICS, 11/30/95.)

# 'AZTLAN' PROPONENT SAID PROP. 187 WAS 'LAST GASP OF WHITE AMERICA'

Can California or the state Democratic Party afford to have an admitted racist and Aztlan proponent as the chairman? Well, former state Senator Art Torres was recently named to that position.

This is the same Art Torres who was a keynote speaker at the U.C. Riverside 'Latino Response to Prop 187 Conference' in January 1995. The two main objectives for this conference were to defeat Prop 187, and to activate plans to "reconquer" the southwestern states, or as they call it "Aztlan".

When Mr. Torres took the podium he began by saying "QUE VIVE LA CAUSA" ("Long live the cause!"). Then he went on to show his true racist/separatist self when he shouted, "REMEMBER, 187 IS THE LAST GASP OF WHITE AMERICA IN CALIFORNIA!"

Is the Democratic party handing California over to the Aztlan crowd? Are they declaring war on all non-Hispanic Californians?

## South Africa Decline Continues

*White flight takes a toll in a country that once stood head-and-shoulders above its neighbors.*

BY GODFREY FORTUNE

On February 2, 1990 F.W. de Klerk initiated the transfer of power from his White government to the Black-dominated African National Congress (ANC) in South Africa.

At that time Whites in South Africa, who produce most of the hi-tech goods and services, numbered about 5 million. Now their numbers are down to 3.9 million, and it is the best qualified who are leaving.

Most do not officially emigrate because they want to return every

year to export their foreign exchange allowance of 23,000 rand.

Some White natives of South Africa may even hope to return if the situation improves. But that is a vain hope.

### SKYROCKETING CRIME

After only one-and-a-half years of Black rule, South Africa has changed traumatically. The visible effects are seen in the horrendous crime rate, the proliferation of gangster syndicates, the explosion of drug trafficking, filthy inner cities, the spread of slums, begging street children and millions of unemployed adults.

From: Spotlight newspaper (\$40 a year)

It now takes 2-4 weeks to send mail to a neighboring town, the public health service is sinking into chaos and educational standards at schools and universities are rapidly declining (to avoid the possibility of a greater percentage of Whites with passing grades).

Add to this moronic television programs, a collapsing civil service and a demoralized police force. Afrikaans formerly shared the main channel on TV equally with English.

Now English has taken over the first channel, while Afrikaans competes with four other African lan-

guages on the second channel. The Xhosa and Zulu groups of languages compete on the third channel. No doubt Henry Kissinger and Harry Oppenheimer are contemplating the changes they forced on South Africa with pride and satisfaction.

In due course the Zulus and the Afrikaners must react or go under altogether. I predict that South Africa will break down into a loose-knit confederation of states.

Nevertheless, the Cape remains an excellent holiday destination as do the Kruger Park and the Drakensberg. It's a funny old world.

# SECESSION: OUR FUTURE WHETHER WE LIKE IT OR NOT

By: Pastor James Homer Russell, *Covenant Church of Our Redeemer*, Fullerton, California · Executive Director of the *Committee of Safety of Orange County, California* · Executive Director of *Californians for Secession*

Secession isn't new to America. In 1776, the colonies separated from England. Subsequently, *nullification* of certain laws, especially relating to states' rights, began to surface. For example, Kentucky and Virginia passed the Resolutions of 1798 to protest the *Alien and Sedition Acts*. Later, Massachusetts threatened to secede. Then in 1832 South Carolina rejected the tariff laws, declared them null and void and also threatened to secede. What was this all about?

In order to recognize changes that have occurred in the last two hundred years, we must observe the steady growth of power that has been grabbed by Washington. In late 1700, Kentucky and Virginia objected to certain laws passed by Congress and asked the other states to help declare them null and void. No federal troops were sent to tame the two states for their impudence because the power of Washington was still relatively benign.

In 1802, Massachusetts talked secession, but Washington didn't dispatch troops to put down this action. Instead, notables from other states visited Massachusetts to debate why it should stay in the Union. Nobody forced Massachusetts to remain. Interestingly, President Tom Jefferson said that Massachusetts had a right to secede, adding that no community should endure the company of those with whom they are in disagreement. Now, that is certainly clear enough!

But it wasn't until 1832 when South Carolina rejected the tariff laws and threatened to secede that Washington began to use its unauthorized power, insisting that tariffs be collected at Charleston. Congress passed the *Force Bill*, upholding President Jackson's order for compliance by South Carolina. As Washington expanded its power, the rights of the states were increasingly ignored. So it was that the hireling became the master.

The stage was set for an Abraham Lincoln-type. After he arrived in 1860, the final "taking" of power was complete. He literally changed the direction of this country. *Before* Lincoln, everyone referred to this nation as "the United States are," but *after* Lincoln, it was "the United States is." The consequences of this less-than-subtle change, what by the way became the foundation for the federal mind-set, was the ruination of our way of life. No longer are citizens of the states held together by common cause. No longer can we look to ourselves for our future. We ran out of time, and the Oligarchy consumed us. It's already happened. It's past tense! That's why this Union can't be redeemed. It is owned *by those who control our government*.

"The United States are" preserved a tradition built on liberty, justice and deference to states' rights. Conversely, "the United States is" tightened a noose around our necks by transferring unbridled power to a few. We are controlled from birth to grave--robots in a callously-run system that has such staggering power that no one can reverse it. No one!

It took 70 years to destroy our Republic and replace it with an Oligarchy fronted by "the best Congressmen that money can buy." All federal officials, for one reason or another, follow the Beltway Pied Pipers and are infected with *Potomac Fever* that destroys our hopes, dreams and accomplishments. In trying to work *within* a system that is so unfriendly and so rigidly controlled, we are distracted from pursuing our only logical course: *secession*. If we waste time trying to repair what can't be fixed, we'll just drag out our misery and at the same time give the flagitious system time to grow stronger so it can bind us down more securely with *bands of iron*.

Now you know what happened to the *American way* and such things as *order, stability, security* and *opportunity*? All gone now--vanished into thin air because miscreants are pulling the puppet strings of spineless Congressmen. Sad, isn't it? It makes a grown man weep.

And I have a message for those naysayers who constantly ridicule those of us who are informed about the "conspiracy." Too many of the rich and famous--Prime Ministers Winston Churchill and Benjamin Disraeli, Professor Carroll Quigley, Congressman Charles Lindbergh, Sr., Henry Ford, Intelligence Agent William Guy Carr and Franklin Roosevelt to name just a few--have warned about the coming New World Order and its ultimate enslavement, even naming the ringleaders and exposing their agenda. Ridicule me, and you ridicule the greats of history. Conspiracy is a fact--not fiction.

Power corrupts. Absolute power corrupts absolutely. Until we wake up and realize that *power* is the issue, we will never regain our liberty or retrieve what is ours. Yet there is hope! Even though America is cowered down and afraid to resist tyranny, Providence has seen fit to grace us with a safety valve: *the decision taken out of our hands*. Whether we like it or not, we are about to be forced to do what we've been afraid to do all along.

Some say that "by dividing us up into smaller nations, the conspirators will be able to pick us off one at a time." Yes, I'm aware that leading up to the War of Northern Aggression, the *internationalists* favored secession so it would be easier for them to gain control of the *debt-free* southern states. But this is a different time--a different set of circumstances. We've lost the Federal War. The America that we once knew is gone. It's controlled by One World foreigners who hold us in disdain. We have neither the strength nor the ability to wrest control of this country away from our Beltway masters.

We still have a choice, for the moment anyway, but we have to start recognizing now that we are at war! It is "them versus us." They are the predators. We are the prey. There's no alternative to resisting the most wicked, demoralizing and punishing force in history. Secession may divide us nationally, but it doesn't preclude forming a new, less-restrictive Confederation for the *common good*--which is exactly what will happen.

# SECESSION: THE END OF OUR CHILDREN'S FUTURE

AGAINST

(Editor's note: Dissolving the United States so that independent states can exercise control over their own areas is the prime topic in patriot circles. I am offering this "con" viewpoint to balance the issue and allow Americans to make their own conclusions. Those who have studied the conspirator's plans have discovered that the globalists want to divide America up into regions, apparently to prevent Americans from uniting against an adversary. I see the logic in both arguments, and to be honest, have not yet come to my own conclusion. We are still lacking information to arrive at the final conclusion we can live with and defend.)

Continued from page 4

Oh, we can wait another couple of years before we act, but long before then, the *window of opportunity* may have closed. By then, Ming will rule the New World of Mongo, and sadly, there won't be any Flash Gordons left to battle tyranny. Our very lives will be at the pleasure of the monied few. Laws that bring diversity in the form of millions of immigrants who lack the American "soul" will cleverly dilute any resistance to the evil within our borders. We will do what we are told, and we will pay over what we earn--all because we waited until it was too late to act.

Some call me *extreme*. I'm not. It's just that I know what most don't--after 40 years of research and warning my fellow citizens. I am reminded of Patrick Henry and Tom Jefferson scolding Tom Paine "because you're too extreme." Was Paine too extreme? Apparently not because eventually both Henry and Jefferson came around to his way of thinking and, probably for the first time, began to understand not only the predicament but the destiny of this nation. Later on, Paine was vindicated when both Henry with his fiery "give me liberty or give me death" speech and Jefferson in writing the Declaration of Independence finally saw that shining light of freedom that for awhile only Paine had been able to see by himself. Oh, God in Heaven! Forgive us for what we have allowed to happen to this nation that You gave us.

I don't know what course others may take. I just know what I must do if I'm going to be able to look my grandchildren squarely in the face before I die. To backsliding America that has been afraid to do for itself, constantly sinking lower into the ugly pit of *denial*, I say that shortly, very shortly now, *outside* forces will cause us to secede. In the end we'll have little say in the matter. It's our destiny, preordained from the beginning of time and, like a rising ocean tide, unstoppable. Debating *secession*, except for educational purposes, has little merit. Instead, what we ought to be doing is planning our future in the soon-coming *Confederation of the American Republics*.

THE PRESENT TRUTH MINISTRY

A few years ago, a patriotic movement centered in Utah was started by Joseph Stumph, called "The Ultimatum Resolution." In short, it was a movement to get rid of the national debt, etc., with a congressional bill. If the United States could not meet the bill's requirements, the U.S. would dissolve and allow independent states to govern themselves.

I liked the idea of discontinuing federal control and giving state's rights back to the people. But I was horrified at the prospect of losing our Constitution. Patriots want to defend the Constitution, not dissolve it. Allowing the United States to fragment is equal to admitting defeat against world socialism. The idea behind patriotism is to defend the United States from all enemies, foreign and domestic, and to uphold the U.S. Constitution. How can we uphold something that has been dissolved?

If states secede they relinquish their control of nuclear missiles and participation in a national armed forces. Independent states may become easy targets for foreign enemies. The state's economy would have to be reorganized and may suffer for several years. Without some federal laws, some states may legalize polygamy, not allow women or non-whites to vote, or lower the legal drinking age. If states secede, all citizens of that state would be ineligible for Social Security, Food Stamps or Welfare, which has become the safety net that protects U.S. citizens from starvation. If states secede there would be no employment insurance. If you are laid off, you are on your own.

A divided America will lose its power that it gained through being united. The conspirators are well aware of this fact and have created maps showing a segmented America controlled by foreign forces. Even the TV mini-series "Amerika" showed our nation being divided into ten regions. In the movie, the Russians believed that a united America was too much of a threat to their total control so they divided it. Ironically, these are the same regions FEMA uses today.

If the Russians want us to divide and the conspirators want us to divide, doesn't it make sense to resist what they are trying to achieve? Wouldn't it be better to remain a united nation and remain strong against future enemies? If states secede, what will happen to the future of our children? Will they have jobs, a home, or be able to raise a family?

# LETTERS TO THE EDITOR

Dear George,

Please renew my subscription to THE PATRIOT REPORT. Thank you very much for lowering the rate to \$15 per year. THE PATRIOT REPORT provides our family and others with a valuable warning on movements of the enemy.

When a family has it's eyes opened to the truth and seeks to break free from the system (Babylon) it often faces financial deprivation. If fellow patriots and Christians do not consider this fact, then they often can cut off those they initially helped by not making subscription allowances. Again, thank you. Idaho

Dear Mr. Eaton,

I just wanted to comment on your "Justice is Dead" article in the Nov. PATRIOT REPORT. Guess what? There is an organization for (& called) the NAAWP - "National Assoc. for the Advancement of White People," founded by David Duke in Louisiana: NAAWP (main office), PO Box 10625, New Orleans, LA 70181. Now is the time to unite! Indiana

Dear Patriot Report,

There is a strange "flu" here. It hangs on for at least 2 months & is only in Delta (Alaska). People who get it & go elsewhere recover in a week. So I think there are leaking germ warfare canisters at the Army's Hazardous Waste dump. The community has been demanding a concrete cover over the drums & canisters. Now that the base is being closed here, it better be done, soon. Alaska

Dear Sir,

You recently mailed me your Jan. 96 PATRIOT REPORT. Please understand that while I honor your right to express your political views, I do not like the way that I think you distort Christ's message of love. If we are to love one another we cannot hate international bankers. The only thing to hate is hate itself. Because my views are at such variance with yours I respectfully ask that you remove my name from your database. Mass.

Mr. Eaton,

Enjoy your fine publication and would like to convey a few thoughts. As a Vietnam Veteran watching things happen around me I get more disgusted every day. We once had a law in this country called the Universal Conscript Law which mandated that able bodied males between 18 & 26 serve their country. It called for 6 years total service but basically let people do 2 or 3 active, or at times 4 in the Navy or Air Force. After Vietnam we ended the draft and came in with the volunteer army.

We now have a generation of politicians of whom very few served. Veterans are a minority in the House & Senate. We've got a Commander in Chief who doesn't have a clue. No military leader would have started any campaign in Eastern Europe in winter, not unless you DON'T want it to be a success. Makes me wonder.

When a nation has a draft the politicians are more cautious of using the armed forces in places because it's anyone's sons & fathers & husbands who may go. With a volunteer force it's a different attitude of "Well, they volunteered didn't they?"

If immigration & our borders are indeed the problem that the media is reporting, use the military instead of whining about not enough border guards.

Major newspapers all backed NAFTA, now as jobs go to Mexico & their papers own subscribers lose their jobs & cancel their subscriptions, the papers are crying "Poor."

Comrade Clinton & his socialist agendas get pushed everyday. Two of the main goals of communism (what was he doing in Russia in the 60's?) are a progressive tax system that virtually eliminates a middle class & the abolition of property ownership. WAKE UP AMERICA!!

Support this paper & others like it, spread the word & let your representatives know that YOU KNOW!

Dear George,

I am writing you to let you know what is going on in the dungeon here & I warn you it is not pleasant. The administration is allowing black inmates to rape young white inmates with almost no penalty to the black inmates. The reason for them allowing this is that they say it helps keep the gangs content & prevents them from harming the guards. It is appalling. After the gangs rape a young white guy, they bring one of their members who has HIV to the room & have him rape the boy as well.

The gangs have been beating young white guys & forcing them to pay \$5 a week rent for living in their room. The gang takes all of the property from the young guys & make them into slaves, but the admin. will do nothing about it. Some of the guards are appalled at what is happening but have their hands tied as to what to do.

The D.O.C. has been adding extra fences inside the institution here & a high ranking official has told me that the D.O.C. is adding these fences in all the prisons. They are to be used to keep inmates in tents. This facility is supposed to hold 860 inmates but they have almost 2000 & with the extra fences they claim they could add an extra 1000-2000. But who are they going to put in there?

They are bringing young white inmates into the prison system which is over 70% black & as here they put them on a gallery where there are 100 blacks & only 10 whites, & they don't have a chance. I have challenged the adminl. on this point several times & was told to mind my business or else, but since the latest incidents I cannot stand around & do nothing. I may get into heat for sending this letter to you & for writing the state Representative but something must be done. If, or rather when, they try to silence me on this matter I will let you know but for now this matter must come to the attention of someone on the outside.

I will try to get more information to you & I am going to see

Dear George,

Just got the Jan. REPORT. Thank Yahweh someone finally put the Identity message in print & before the American people. It sounded a bit racist when you said, "White Europeans founded this country" but that is the fact. Isaiah 56 takes care of all others! I have known we were the dispersed for about 1½ years. Matthew 5:17 & 19 got me reading the Old Testament & I decided that where Yahweh said "forever & to all your generations" that is exactly what He meant & things that He commanded that did not carry the "forever & to all your generations" were removed by Christ. These are the animal sacrifices & Temple rites.

I hope you continue to stress the Identity message as I really feel that it is the glue that will bind God's nation together & to Him. If He be for us who can stand against us? Some scriptures that bring out the Identity truth for me: II Samuel 7:10: "I will appoint a place for my people Israel & they will move no more..." (They were already in Canaan). Genesis 12:3: "And in thee will all the families of the earth be blessed." (America gave the world most modern inventions & all the foreign aid.)

Dear Patriot Report,

Your article "Globalism Destroys America's Vision & Purpose" (Jan. 96) really interested me. I have been a long believer that America is part of the "Lost Ten Tribes of Israel." Any opportunity I get I talk to people about this subject. Most people are amazed when I tell them who this nation really is & why we are in the kind of trouble we are now in.

Can you also identify the rest of modern Israel? And what about the Assyrians; the original enslavers (from the Holy land) of the ancient Israelites. Are they around today? I hope you can identify the modern Assyrians...they are not who most people think they are. Nevada

(Response):

Thanks for your letter; your input is important to us.

To answer your question concerning the Assyrians, I believe they are a mixture of ancient tribes such as the Edomites, Babylonians and Canaanites. I believe they are descendants of Cain & whoever he married into, and of Esau. By the way, I was told by a minister that a history book he read stated that the Assyrians recorded the beginning of Adam's race. They recorded his descendants and the flood. The Assyrians recorded fleeing to higher mountains during the flood, which originated in the area where Adam's descendants were living. It is my belief that other non-Adamic, (pre-Adamic) races survived the great deluge. The Adamic race brought forth the Israelites, and the Israelites are the Caucasians & white nations of the earth. The non white races are God's creations before Adam.

George,

A difference between Christian patriots & Christians: The patriots are thankful God gave us this country, & the patriots are willing to die for this country, but not willing to accept death in a New World Order gulag.

For the first time in history there

is a way to destroy the whole Earth, controlled by a few people - a chosen people. For the first time in history there is a way to count all people of the Earth, a micro-chip or mark, controlled by a few people - a chosen people. For the first time in history there is a organization prepared to govern & enforce the laws of humanity around the whole Earth; a few people - a chosen people: Satan's people.

Jesus said in Revelations that these things must pass. We'll cry out from under the footstool of the Lord that our blood be avenged, and like all things, we must wait. I am proud we are of **His** chosen people. Thank you Jesus! North Carolina

Who is a true American?

If the American citizens don't "get involved," then who can they blame when they lose their freedom offered by the original Constitution? Once they are disarmed they will also lose all of their other constitutional freedoms too! The New World Order/United Nations is Satan's government & kingdom. The only thing standing in their way for total world control is America! Within America, only those true American citizens who believe in God & Jesus Christ & the original Constitution are standing between the NWO/UN's dictatorial total world control! The battle between God & Satan is very real. Basically all we are doing is choosing which side we will support. The choice we make will have a profound & eternal consequence on the determination of where we must spend eternity. This could explain what is meant by the scripture in Revelation where many people come before God to be judged & there is weeping, wailing & gnashing of teeth. Meaning if we fail to defend our freedoms, who can we blame? All we can do is look in the mirror at the individual who failed and blame ourselves for earning a lower glory with our Heavenly Father. One of Satan's greatest & most subtle weapons is to seduce mankind into not getting involved, taking the path of least resistance. The choice is ours! Utah

## NATIONAL NEWS BRIEFS

U.S. troops are grumbling about a pamphlet that advises them to tell any inquiring reporter they have full confidence in their commanders from President Clinton on down. The pamphlet, titled "Answers You Can Use" was prepared by the Army's V Corps and has been distributed to all Army troops in Bosnia to help them deal with pesky press inquiries. One suggested answer is: "U.S. forces are confident in our trained and competent leaders. We have pride in our leadership, from the president on down, and full trust in their decision." The problem is, not all soldiers feel that way. (WASHINGTON POST, 1/29/96)

On 1/11/96, HBO featured a documentary on the subject of U.S. prisons. It was predicted that at the present rate of incarceration the prison population of the U.S., in the year 2015, will reach 6 million inmates. That number exceeds the total population of many small countries around the world. One Warden openly admitted that prisons were becoming "big business" by creating jobs in the communities where they're being built. This is, of course, no secret. WABC radio talk show host, Lionel, was an assistant prosecutor in the state of Florida. He told the story about his boss telling him to "pray that the government never legalizes drugs, because if they do, we're out of a job." (NEW JERSEY MILITIA NEWSLETTER, PO Box 10176, Trenton, NJ 08650)

On May 3, 1994, President Bill Clinton signed PDD #25. This says during times of national emergency, complete command and control of the United States Military would pass from the President to the Secretary General of the United Nations. Kind of makes you wonder what ever happened to the Constitution. (THE WORLD ACCORDING TO US.)

Anger & resentment are building against federal austerity controls imposed on the District of Columbia.

Things are so bad that the Post Office refused to accept mail from the local Dept. of Human Services because its postage account was empty. That may not seem like a big deal, but it meant that 86,000 food stamp recipients had to wait weeks for their benefits. But once they get the food stamps, they're not much better off because the District is in arrears to food vendors so they won't accept the stamps. Residents are also grating over plans to cut welfare payments in the District by over \$45 million over the next 5 years. Some 50,000 children in our nation's capital are on welfare, with 27,000 of them living with neither parent (many of the parents are in jail; D.C. has the highest incarceration rate in the country). Activists want President Clinton to declare Washington a disaster area, which sounds about right. (POLITICAL DYNAMITE, 12/95)

The scientific military flock are reported to be working on something new. The "Trojan Horse" project is trying to find a way to manipulate the electric liquid in the brain to alter human behavior. The disruption of the biological liquid crystals in the brain could cause sudden waves of suicides, killings, riots and hysterical acts on a massive scale. (THE WORLD ACCORDING TO US.)

The computer simulations of a Sino-American confrontation in Asia alluded to in the text are particularly interesting because, based on the most accurate predictions of where each military power will be in 2010 - guess what - the Chinese won! And that was not a fluke: The simulations at the U.S. Naval War College were conducted in 1994 and 1995, with the same results. According to Nicholas Kristof of the New York Times, the Central Intelligence Agency recently conducted its own simulations of such a scenario set in the year 2005...and China handily won that "war" also. (SOLDIER OF FORTUNE "War Games & Warmongers" 2/96.)

Usually reliable sources report that efforts are underway to hand over sovereignty of Jerusalem's Old City to the Pope. Such a plan would make Jerusalem an international city and relocate the U.N. headquarters to it from New York. This would have Christian, Judaism and Islam citizens all under the authority of the Vatican. (THE WORLD ACCORDING TO US.)

Our "good friends" Russia and China have agreed to supply Iran with nuclear reactors. China will deliver two 300 megawatt atomic plants. These should enable Iran to mass produce nuclear war heads. (THE WORLD ACCORDING TO US.)

The CFR, the organization that some media says does not exist, is helping organize an academic conference in Hanoi, Vietnam. America, which now loves Communists, is sending a delegation. Former U.S. Defense Secretary Robert McNamara will drop by just to say "Love ya!" (THE WORLD ACCORDING TO US.)

You should soon be hearing a lot about Mena a small town in Arkansas. During the 80's while Bill Clinton was governor, the Mena International Regional Airport was a major drug trafficking center. The CIA used the airport as a secret landing strip to supply Contra rebels fighting the Sandinista government in Nicaragua. This was the base of Eugene Hasenfus who was shot down over Nicaragua. The planes that flew down military arms and supplies brought back drugs by the tons - 36 metric tons of cocaine, 104 tons of marijuana and 3 tons of heroin. Barry Seals was a player in this CIA/drug/big money operation. When he was assassinated in 1986, Seal had a number of bank accounts, including one in the Cayman Islands with a balance of \$1.64 billion. This stinking mess will probably come out during the presidential campaign. (THE WORLD ACCORDING TO US.)

# NATIONAL NEWS BRIEFS

Begging in New Orleans has become so prevalent that the city has passed an ordinance requiring beggars to obtain permits.

After the derailment of propane cars in Weyanwega, Wisconsin, 1,700 residents have been forced out of their homes. Some believe that this disaster is nothing more than practice by the federal government to see how much the public will tolerate. Wisconsin Gov. Thompson is puzzled that more has not been done to extinguish the blaze. "I couldn't understand why we could put fires out in the Middle East but not in Weyanwega," he said.

Rumors from the Militia of Montana:

During the Chinese missile tests off the coast of Taiwan, the U.S. upgraded its defense status to DEF CON 4 (5 is normal, 1 is the highest alert status).

Reports from Bosnia say that a gray dust has been falling over U.S. troops. The research doctors that uncovered the Gulf War Syndrome are concerned that U.S. troops are being exposed to experimental biological or chemical warfare agents.

A Los Angeles Mexican politician was reported in the daily press as saying: "We'll take back the land you stole from Mexico, house by house, block by block, city by city." The influx of millions of illegal Mexicans, while fools drink their six-packs and watch sports, convince the politicians they can ignore the border problem.

Two witnesses have reported observing a large movement of military hardware in mid-Oct. through Whittier, AK. The shipment consisted of small articulating vehicles, which are multi-purpose tracked vehicles, small humvees with trailers, M113 armored personnel carriers (old, from the '60's, mostly parts), and possibly some ATV's, and trucks.

They were not new except perhaps for the humvees. The articulating vehicles were a new design. The equipment came in on barges and left on trains, off and on for a week or so. They were olive drab, not camo or white. It was estimated that on one particular day there were 1000 to 1500 vehicles filling 2 barges still in the harbor and also filling the train yard. Two more barges were seen at Ship Creek in Anchorage a week later loaded similarly. Unfortunately, no pictures were taken.

Public health officials worry about how America will respond to the next worldwide outbreak of influenza. Experts agree a pandemic is coming and will require a huge mobilization to vaccinate the entire U.S. population. The biggest problem facing health officials once they isolate the virus is a lack of facilities that can quickly grow vast amounts of the cultures needed for vaccine. The last truly global flu outbreak of 1918-19 killed 20 to 40 million people, including 200,000 in the U.S. (THE KNOXVILLE NEWS SENTINEL 1/21/96.)

Executive Secretary of the U.N. Economic Commission, addressing an AIDS seminar said: "The U.N. estimates that of the 15 hard-hit countries in Africa, approx. 2 million persons could die as a result of AIDS by the year 2000 if the present trend continues unabated." (THE WORLD ACCORDING TO US, PO Box 10309, St Petersburg, FL 33733.)

The spread of mosquito-born Dengue, a serious tropical disease, is worrying Central American governments. Dengue, also known as "Break Bone Fever" has infected over 50,000 people so far this year and caused a number of deaths. (THE WORLD ACCORDING TO US.)

Helmut Schmidt, former West German chancellor, predicts that mass population shifts will result in many

little wars during the 21st Century. He said that due to world wide over population, 125 million people migrate yearly now. The world had 1.6 billion people in 1900. Today it has 5.7 billion.

The annual State of the Population report by the U.N. lists the current world population at 5.7 billion. If birth rates are not reduced, they say the number of people on the planet by the year 2050 could be close to 12 billion. Some scientists say the earth cannot sustain that many people. (THE WORLD ACCORDING TO US.)

The following is excerpted from a fund raising letter signed by Morris Dees, Chief Trial Counsel, Southern Poverty Law Center. Disregarding the use of anti-concepts and package deals, this will give you an idea of what one of the FBI's surrogate political intelligence arms is up to... "Over the years, we have built the most extensive computerized files on militias and hate groups in existence. They include over 11,000 photos, records of over 61,000 hate activities, reports on 14,000 individuals who have committed hate acts or are affiliated with hate groups, and intelligence on over 3,200 hate group and militia organizations. Six times a year, we report our findings to over 6,000 law enforcement agencies in our Intelligence Report. Now we must do more, and we must do it quickly. We are beefing up our investigative staff and preparing for legal action against militia groups." (THE RESISTER)

U.S. airports are on a heightened security status after Wednesday's sentencing of 10 Islamic fundamentalists who plotted a war of urban terrorism in New York, officials said. "Some people could interpret what was said in the courtroom as a call to arms," said James Kallstrom head of the New York FBI office. He did not elaborate. (USA TODAY 1/96)

We have problems in our nation, but we can solve them without destroying America and turning our backs on the Constitution. Secession is much too radical an approach to our problems. Patriots must continue to educate our nation and win the hearts and minds of the people so we can save the whole nation.

## COLLOIDAL SILVER

Everyone is talking about it, that ancient remedy of all that ails you, but few are able to make it. Why, because like all newly found remedies, someone will make the fortune as long and as fast as they can, until the knowledge becomes general and they lose out due to competition. That is what is happening with Colloidal Silver. The knowledge is leaking out to the public that they don't have to pay up to \$40 per 8 oz of H2O anymore. Now, you can make your own silver solution in your own home, even purify the water at the restaurant, make it so cheap that you can put it in the cattle tank to control algae, bathe in it, gargle it, drink it, because now you can make your own for almost nothing. This article is not to tell you about all the benefits of using silver, we leave that to others. This article is to inform you on how to make your own in unlimited quantity using a process that will last for years to come. This small generator is battery operated and uses 99.999% pure silver anode and cathode, each six inches long. It is mounted in an attractive hand crafted wooden box, about twice the size of a pack of cigarettes.

The electrocolloidal process allows extremely fine silver particles to be suspended in solution by the charge placed on the particles. A 30 second charge of 8 oz water will properly charge it. You will be fascinated as you watch the electrolysis process before your eyes.

This small generator is available by ordering directly from Cascadia Silver, c/o Mervin Brown, 790 Insel Road PR., Woodland, Wash, 98674. Enclose \$60.00 cash (FRN's) or 10-1 oz rounds of silver. Shipping and postage are included, and 10% goes to the Patriot Report to support this fine work. Information and instructions are included with purchase. Satisfaction guaranteed or money refunded.

# U.N. CALLS FOR GLOBAL TAX

**U.N. missions:** United Nations bureaucrats, already living well thanks to American tax dollars, have designs for an international tax to further finance global missions.

A U.N. commission is calling for taxes on aviation traffic, cruises, fuel and telecommunications. James Speth, the Clinton-appointed head of the U.N. Development Program, also argues for a global tax on certain foreign exchange transactions.

Such plans would undermine national authority and burden an already over-taxed population.

If U.N. officials want more cash, they should curb their exorbitant lifestyles, slash the U.N.'s bloated bureaucracy and rein in its mission.
